

Year 2 Topic Homework

Summer Term 2026

Our guided reading text this term is 'House Held Up By Trees' by Ted Kooser. This book explores the themes of growth, loss and change, and will form the basis of lots of our forest school adventures this term.

For homework, please support your child to **build their own tiny house**. Below are some examples of little 3D house creations. Your child could use paper, card, lego, cardboard, twigs, wood etc.- the more creative the better! The key, is to keep it tiny (smaller than an egg box).

We will be using our homework projects in forest school, and so need these returned to school by **Monday 27th April**. Thank you in advance, we really appreciate your ongoing support!

Mrs Draper, Mrs Gunn and
Mrs Jackson.
