

5, 4, 3, 2, 1...BLAST OFF!

Our next topic this half of Summer Term is SPACE!
We are looking forward to our 'Wonder Dome' space day, and have many exciting opportunities planned to create some awe and wonder!

Our role play area is now space themed, and we hope to fill it with props, made by the children, which will bring our topic to life.

Below are some creative homework ideas for inspiration:

- Star bunting
- 3D rockets
- Alien masks
- Astronaut helmets
- Paper plate planets
- Moon replica

We're really grateful for your continued support, and can't wait to see what the children will make.

Thank you
Miss Verlander and Mrs Brazier
